

If space is a concern, look to our M 5.1 as your in-room safe solution. The M 5.1 incorporates the same durable construction as our larger safes, yet is designed to fit into tight closets and small guest rooms. This particular safe is popular at hotels needing a wider, yet not so deep solution for closet shelves.

M 5.1

Operationally, the M 5.1 and the industrial strength Emergency Handheld Override (EHO) are easy to learn and simple to operate. Hotels looking for added security often select the Medeco UL-rated fail-safe override key system. As an added peace of mind, all Safemark safes include a limited 5-year manufacturer's warranty and an exclusive \$10,000 warranty against forced entry.

AVAILABLE IN BLACK, BEIGE or CUSTOM COLORS
